Date of birth: 18/09/1999 **Nationality:** Romanian

ABOUT ME

I am a self-taught developer who loves breaking down complex problems and building software from scratch, ranging from indie games to applications. I adapt quickly to new tech stacks, enjoy tracking down unpredictable bugs, and write clean, practical code. I am looking to bring this technical logic and hands-on discipline to a collaborative team where I can build real solutions and make an immediate impact.

WORK EXPERIENCE

FEV ECE Automotive

City: Bucharest | **Country:** Romania

[08/07/2022 - Current] **Software engineer**

- **Model-Based Development:** Design, simulate, and validate complex software architectures using Simulink and ASCET to ensure system stability.
- **C/C++ Core Programming:** Write, optimize, and debug clean embedded C/C++ code for high-performance applications.
- **Python Application Development:** Develop and deploy custom Python applications to automate internal workflows and data processing.
- **CI/CD Automation:** Architect and manage end-to-end Jenkins pipelines to streamline software builds, automated testing, and deployment cycles.

FEV ECE Automotive

City: Bucharest | **Country:** Romania

[27/06/2021 - 09/09/2021] **Internship**

- **Computer Vision Project:** Built and optimize a Convolutional Neural Network (CNN) to detect and classify traffic signs, achieving high accuracy through custom data augmentation and model tuning.

PROJECTS

[Current] **Github Repository**

Personal Portfolio & Technical Projects

EDUCATION & TRAINING

[2018 - Current] **Bachelor's Degree**

Polytechnic University of Bucharest, Faculty of Applied Sciences

Address: Bucharest

[13/07/2018] **High School Diploma**

"Octav Onicescu" National College, profile Mathematics-Informatics, Intensive Informatics

Address: Bucharest

LANGUAGE SKILLS

Mother tongue(s): Romanian

Other language(s):

English

LISTENING: B1 **READING:** B2 **WRITING:** B2

SPOKEN PRODUCTION: B2 **SPOKEN INTERACTION:** B2

SKILLS

C#(Intermediate) | C/C++(Intermediate) | Python(Advanced) | Jenkins(Intermediate) | Django(Beginner) | Simulink(Advanced) | Python Libraries : Pandas, Numpy, PyQt (Intermediate) | Java(Beginner) | Unity2D/3D(Advanced) | MySQL | Matlab(intermediate) | ASCET(Intermediate) | Microsoft Office | Git | Groovy(Intermediate) | Svn | Jira

HOBBIES AND INTERESTS

Coding & Software Development

Building indie games and prototyping software in my spare time.

Music

Avid music listener. It helps me focus.

Active Lifestyle & Wellness

Consistent 4-day weekly workout routine covering weightlifting and strength training.

VOLUNTEERING

[31/08/2019 - 29/02/2020]

Volunteer at Fundamentals of Programming Course Bucharest - Faculty of Applied Sciences

- answering students questions regarding programming in C++
- helping students put in practice what they have learned
- grading students based on what they managed to do in the allotted time.
